FAMILY & COSMETIC DENTISTRY

4963 MACKINAW RD., SAGINAW, MI 48603

PAUL M. SCHMIDT, D.D.S., P.C.

## **Philosophy of Care**

I am proud to have served patients in our community since 2003. My dental team and I are committed to our relationship-based practice. This commitment in combination with a state-of-the-art facility allows us to offer you and your family the high quality of care and service that you are looking for.

The purpose of our practice is to advance the health of others through appropriate advice and care.

As your dentist, I can assure you that you will receive the personalized attention you deserve. We strongly believe in the value of *informed choice* and feel that life-long dental health is only possible when the caregiver and patient work together to achieve clearly defined goals which they both feel are appropriate.

Comprehensive evaluations involve a gentle and careful review of the condition of the teeth, gums, muscle system, bite, TMJ's, previous dental work, and esthetics. They are intended to reveal not only current needs, but also trends which may lead to future problems. Our patients value this accurate and timely information as it allows them the opportunity to make educated decisions and work collaboratively with us to achieve shared treatment goals.
